

工作經歷

1. 產學合作

- a. **工作單位：**台大資訊管理學研究所
- b. **工作名稱：**產學合作研究員/助理研究員
- c. **工作時程：**2025/05/01~2026/06/31
- d. **工作概要說明：**參與校內與企業合作的專案，負責資料集建置、清理與特徵工程，使用 Python 與相關套件進行資料前處理，並基於 OpenAI Embedding 與其他語言模型進行語意向量生成與分析。同時包含模型設計、訓練並評估各類機器學習模型。最後用於文本分類與推薦系統應用，也協助專案團隊完成模型性能測試及報告撰寫，提供專業建議以優化模型效果。
- e. **習得技能：**
 - i. 資料清理、特徵工程與資料集建置 (Python、Pandas、NumPy)
 - ii. 使用 OpenAI Embedding 及其他語言模型進行文本向量化與語意分析
 - iii. 機器學習模型設計、訓練與調參 (Python / scikit-learn / PyTorch)
 - iv. 模型評估與性能優化 (交叉驗證、F1-score、ROC-AUC 等)
 - v. 推薦系統與文本分類模型建置經驗
 - vi. 專案報告撰寫與技術簡報能力
 - vii. 團隊協作與專案管理能力

2. 計算機概論助教

- a. **工作單位：**高點教育集團短期補習班
- b. **工作名稱：**補習班助理教授 (科目：計算機概論)
- c. **工作時程：**2025/06/01~2026/01/31
- d. **工作概要說明：**擔任計算機概論課程助教，每兩週主持一次線上直播解題課程，針對程式設計、演算法與資料結構相關題目進行解析與示範；協助學生完成課堂作業與程式練習，並針對不同程度學生提供個別指導，確保課程概念被正確理解與吸收。
- e. **習得技能：**
 - i. 線上直播教學與課程設計能力
 - ii. 程式設計、演算法與資料結構教學經驗
 - iii. 問題拆解與解題示範技巧
 - iv. 學生溝通與輔導能力

Work Experience

1. Industry-Academia Collaboration

- a. **Employer:** Graduate Institute of Information Management, National Taiwan University
- b. **Job Title:** Industry-Academia Collaboration Researcher/Assistant Researcher
- c. **Duration:** 2025/05/01–2026/06/31
- d. **Summary:** Participated in collaborative projects between the university and corporations. Responsible for dataset construction, cleaning, and feature engineering, utilizing Python and relevant packages for data preprocessing. Generated and analyzed semantic vectors based on OpenAI Embedding and other language models. Designed, trained, and evaluated various machine learning models for applications such as text classification and recommendation systems. Also assisted the project team with model performance testing and report writing, providing professional advice to optimize model effectiveness.
- e. **Skills Acquired:**
 - i. Data cleaning, feature engineering, and dataset construction (Python, Pandas, NumPy)
 - ii. Text vectorization and semantic analysis using OpenAI Embedding and other language models
 - iii. Machine learning model design, training, and hyperparameter tuning (Python / scikit-learn / PyTorch)
 - iv. Model evaluation and performance optimization (Cross-validation, F1-score, ROC-AUC, etc.)
 - v. Experience in building recommendation systems and text classification models
 - vi. Project report writing and technical presentation skills
 - vii. Team collaboration and project management skills

2. Introduction to Computer Science Teaching Assistant

- a. **Employer:** Kao Tien Education Group Short-Term Cram School
- b. **Job Title:** Assistant Lecturer (Subject: Introduction to Computer Science)
- c. **Duration:** 2025/06/01–2026/01/31
- d. **Summary:** Served as a Teaching Assistant for the Introduction to Computer Science course. Hosted a bi-weekly live online problem-solving session, focusing on analysis and demonstration of topics related to programming, algorithms, and data structures. Assisted students with class assignments and programming exercises, providing individualized guidance to students of varying levels to ensure a proper understanding and absorption of course concepts.
- e. **Skills Acquired:**

- i. Online live teaching and curriculum design capabilities
- ii. Teaching experience in programming, algorithms, and data structures
- iii. Problem decomposition and solution demonstration techniques
- iv. Student communication and tutoring skills
